

Clinical Research Associates (CRA) in Athens

We are looking to hire full time Clinical Research Associates (CRA) at Accelsiors. A great opportunity to join a global, growing team!

Main responsibilities

Acts as primary individual responsible for monitoring activities with investigational sites, from site identification and selection, through site activation, subject enrolment and study conduct until close out, ensuring the clinical trial is conducted in compliance with study protocol and procedures, ICH-GCP guidelines and any applicable regulations and SOPs.

Requirements

- Bachelor's degree in health care or life science related field
- At least 2 years proven monitoring experience
- Strong knowledge of ICH GCP Guidelines and other applicable regulatory requirements
- Strong communication, interpersonal, and organizational skills
- Fluent in written and spoken English
- Proven ability to work independently in a fast-paced environment
- Excellent computer skills

Employment features

This is a full-time, home-based position in Greece, preferably in Athens region.

There is an option to choose between freelance or employee status.

We would be happy to discuss the role details upon application.

What to expect next:

If you are interested in the position, please send us your CV **in English** to y.litos@accelsiors.com

A member of our recruitment team will review your qualifications and if interested, you will be contacted for an interview.

GDPR declaration

By sending you CV, you consent to the processing of your personal data.
Your CV will be included in Accelsiors' database to be considered for future roles.

About Accelsiors

Accelsiors is a leading Niche international Clinical Research Organization with a strong focus on specific therapeutic expertise, study process management and customer satisfaction. Accelsiors management were amongst the first to develop Biosimilar / Biologics therapies through the clinic to registration and this has become one of the key areas of business for the Company in addition to Biotech and pharma focus.

In addition our therapeutic focus is in Endocrinology, Neuroinflammatory, Renal, Oncology, Pulmonary, Infectious Disease, Rare Disease, Orphan and Pediatric disorders. The Company intends to build out other therapeutic business units in its clinical group over time. Find more at www.acceliors.com
